PROFESSIONAL SUMMARY

Full Stack Developer with around 2 years of experience building CRM, ERP, accounting, and inventory applications using ASP.NET Core, ABP Framework, Angular, and Microsoft SQL Server. Experienced in developing real-world features such as dashboards, financial reports, role-based access, and real-time messaging for applications used by multiple companies. Also skilled in integrating Google Gemini chatbots that provide answers based on website-specific content.

TECHNICAL SKILLS

Frontend: Angular 17+, TypeScript, RxJS, JavaScript, HTML5, CSS3, PrimeNG, Tailwind CSS.

Backend: C#, ASP.NET Core Web API(.NET 8), ABP Framework, Entity Framework Core, RESTful APIs, SignalR, LINQ, Background Jobs, RBAC, Multi-Tenancy, JWT, Clean Architecture, Swagger/OpenAPI, Stripe API

Database: Microsoft SQL Server, Schema Design, Query Optimization, SSMS

AI & Chatbots: Google Gemini API, AI Chatbot Integration, Prompt Engineering, AI-Assisted Development

Tools: Git, GitHub, Postman, Visual Studio, VS Code, Cursor

PROFESSIONAL EXPERIENCE

Full Stack Developer — Karma Software Solutions
Aug 2025 – Present

Product: MaxOutCRM (app.maxoutcrm.com)

- Build Angular interfaces and ASP.NET Core (ABP Framework) REST APIs for task tracking, meeting scheduling, and tenant management in MaxOutCRM, a production multi-tenant CRM with 100+ tenants and 1,000+ users.
- Delivered analytics dashboards, a per-user Task Completion Report, and custom financial reports used across 100+ tenants.
- Designed granular role-based access control with JWT authentication, enforcing permissions per user and per tenant.
- Optimized Microsoft SQL Server schema design and queries, cutting dashboard/report load from 8 seconds to 3 seconds.
- Independently shipped complex modules end-to-end, including SignalR real-time chat, notifications, and third-party API integration.

Full Stack Web Developer — Expert Accounting Software
Apr 2024 – Jun 2025

Products: EAS Inventory Management | EAS Sync App

- Built Angular applications for accounting and multi-warehouse inventory management, serving hundreds of daily active users.
- Developed secure ASP.NET Core Web APIs for data synchronization in EAS Sync App and dynamic financial statement generation.
- Implemented multi-warehouse stock tracking, client transaction modules, and executive decision support dashboards.

Frontend Developer — Aurum Memorabilia (Bahrain)
Feb 2024 – Mar 2024

Project: Aurum E-Commerce Website

- Built product catalog, multi-criteria search filters, and cart management with Arabic/English bilingual localization in a 5-member cross-border Agile team.

Full Stack Web Developer (Intern) — Cloudy365 Pvt Ltd
Oct 2020 – Jan 2021

- Built ERP front-end screens and ASP.NET Web API integration for the ESESOL ERP system and its Android sales app.

PROJECTS

AI Website Chatbots — Angular, ASP.NET Core, Google Gemini API

Project: Insurance Website (dr-saleem-insurance.vercel.app)

- Integrated Gemini-powered chatbots into a personal portfolio and insurance advisor's website, answering visitor queries strictly from site-specific content through prompt engineering and context grounding.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — The Superior College, Lahore | May 2020
