PROFESSIONAL SUMMARY

Full Stack Developer with around 2 years of experience building and shipping multi-tenant CRM, ERP, accounting and inventory applications using ASP.NET Core, ABP Framework, Angular and Microsoft SQL Server. Currently building MaxOutCRM, a production CRM with 100+ tenants and 1,000+ users, delivering analytics dashboards, financial reports, role-based access control, SignalR real-time messaging and query optimizations (report load 8s to 3s). Also skilled in integrating Google Gemini chatbots that answer strictly from website-specific content. Open to relocating to the UAE.

TECHNICAL SKILLS

Frontend: Angular 17+, TypeScript, RxJS, JavaScript, HTML5, CSS3, PrimeNG, Tailwind CSS

Backend: C#, ASP.NET Core Web API (.NET 8), ABP Framework, Entity Framework Core, RESTful APIs, SignalR, LINQ, Background Jobs, RBAC, Multi-Tenancy, JWT Authentication, Clean Architecture, Swagger/OpenAPI, Stripe API

Database: Microsoft SQL Server, Schema Design, Query Optimization, SSMS

AI & Chatbots: Google Gemini API, AI Chatbot Integration, Prompt Engineering, AI-Assisted Development

Tools & Practices: GitHub, Postman, Visual Studio, VS Code, Cursor

PROFESSIONAL EXPERIENCE

Full Stack Developer | Karma Software Solutions, Lahore Aug 2025 – Present

Product: MaxOutCRM

- Build Angular interfaces and ASP.NET Core (ABP Framework) REST APIs for task tracking, meeting scheduling and tenant management in MaxOutCRM, a production multi-tenant CRM with 100+ tenants and 1,000+ users.
- Delivered analytics dashboards, a per-user Task Completion Report and custom financial reports used across 100+ tenants.
- Designed granular role-based access control with JWT authentication, enforcing permissions per user and per tenant.
- Optimized SQL Server schema design and queries, cutting dashboard/report load time from 8 seconds to 3 seconds.
- Independently shipped complex modules end-to-end, including SignalR real-time chat, notifications and third-party API integration (Stripe).

Tech: C#, ASP.NET Core, ABP Framework, Angular, TypeScript, Entity Framework Core, SignalR, MS SQL Server, JWT, Stripe API

Angular Developer (Full Stack Contributions) | Expert Accounting Software, Lahore Apr 2024 – Jun 2025

Products: EAS Inventory Management | EAS Sync App

- Built Angular applications for accounting and multi-warehouse inventory management, used by multiple clients.
- Developed secure ASP.NET Core Web APIs for data synchronization in EAS Sync App and dynamic financial statement generation.
- Implemented multi-warehouse stock tracking, client transaction modules and executive decision support dashboards.

Tech: Angular, TypeScript, RxJS, ASP.NET Core Web API, C#, MS SQL Server

Frontend Developer | Aurum Memorabilia (Bahrain) Feb 2024 – Mar 2024

Project: Aurum E-Commerce Website

- Built product catalog, multi-criteria search filters and cart management with Arabic/English bilingual localization in a 5-member cross-border Agile team.

Tech: React, JavaScript, HTML5, CSS3, Tailwind CSS

Full Stack Web Developer (Intern) | Cloudy365 Pvt Ltd Oct 2020 – Jan 2021

- Built ERP front-end screens and ASP.NET Web API integration for the ESESOL ERP system and its Android sales app.

Tech: ASP.NET Web API, C#, HTML, CSS, Bootstrap, JavaScript

PROJECTS

AI Website Chatbots — Angular, ASP.NET Core, Google Gemini API **(Insurance Website)**

- Integrated Gemini-powered chatbots into a personal portfolio and an insurance advisor's website, answering visitor queries strictly from site-specific content through prompt engineering and context grounding.

Tech: Angular, TypeScript, Google Gemini API, Vercel (Deployment)

EDUCATION

Bachelor of Science in Computer Science (BSCS) — The Superior College, Lahore May 2020
