PROFESSIONAL SUMMARY

Full Stack Developer with approximately 2 years of software development experience building enterprise web applications, CRM, ERP, accounting, and inventory management systems using Angular and ASP.NET Core. Skilled in designing scalable RESTful APIs, real-time features, and secure, maintainable architectures. Comfortable working across the stack and with modern AI-assisted development workflows to ship production features faster without sacrificing code ownership or quality.

CORE COMPETENCIES

Enterprise Web Applications • RESTful API Design • Angular • ASP.NET Core & ABP Framework • Real-Time Systems (SignalR) • Database Design & Optimization • Clean Architecture & SOLID • JWT Authentication & RBAC • AI-Assisted Development • Git & Version Control

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, PrimeNG, Tailwind CSS, Bootstrap, Responsive Web Design

Backend: ASP.NET Core Web API, ABP Framework, C#, Entity Framework Core, RESTful APIs, SignalR, LINQ, Background Jobs, JWT Authentication, RBAC, Clean Architecture

Database & Tools: MSSQL Server, SSMS, Postman, Git, GitHub, Visual Studio, VS Code

Modern Dev Practices: AI-Native Development, Prompt-Driven Engineering, Rapid Prototyping

PROFESSIONAL EXPERIENCE

Full Stack Developer — Karma Software Solutions

Aug 2025 – Present

Project: MaxOutCRM (app.maxoutcrm.com)

- Architecting and developing responsive Angular components (PrimeNG) for MaxOutCRM, a multi-tenant CRM serving enterprise clients for task tracking, meeting scheduling, and tenant management.
- Building scalable RESTful APIs with ASP.NET Core and the ABP Framework, integrated with Angular services for real-time communication.
- Delivering interactive analytics dashboards, custom financial reporting modules, and granular Role-Based Access Control (RBAC) supporting daily active users.
- Adopted AI-native development practices to independently design and ship complex modules — chat, notifications, and third-party API integrations — owning architecture, business logic, and code quality through GitHub pull requests and review.
- Optimizing MSSQL schema design and query performance to streamline complex data operations.

Full Stack Web Developer — Expert Accounting Software

Apr 2024 – Jun 2025

Projects: Eas Inventory Management | Eas Sync App

- Built high-performance Angular applications (Tailwind CSS, Bootstrap, Angular Routing) for accounting and multi-warehouse inventory management systems.
- Integrated ASP.NET Core Web APIs for secure data handling, real-time synchronization, and dynamic financial statement generation.
- Developed core modules for multi-warehouse inventory tracking, client transactions, and executive decision-support dashboards, improving operational efficiency.

Frontend Developer — Aurum Memorabilia (Bahrain)

Feb 2024 – Mar 2024

Project: Aurum E-Commerce (aurummb.com)

- Developed a high-converting e-commerce platform (ReactJS, Tailwind CSS) within a 5-member cross-border agile team.
- Implemented product catalogs, multi-criteria search filtering, cart management, and Arabic/English bilingual localization.

Full Stack Web Developer (Intern) — Cloudy365 Pvt Ltd

Oct 2020 – Jan 2021

- Designed front-end interfaces for the ESESOL4IndustrySolutions ERP System using HTML5, CSS3, Bootstrap 4, JavaScript, and jQuery.
- Developed backend API integrations and Android sales management screens using ASP.NET Web API, XML, Java, and Postman.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — The Superior College, Lahore | May 2020

Intermediate in Computer Science (I.C.S) — Govt. Islamia College, Lahore | 2016
