**Tools:** Git, GitHub, Postman, Visual Studio, VS Code, Cursor

## PROFESSIONAL EXPERIENCE

### Full Stack Developer — Karma Software Solutions

*Aug 2025 – Present*

***Product: MaxOutCRM (app.maxoutcrm.com)***

- Build responsive Angular interfaces and scalable ASP.NET Core (ABP Framework) REST APIs for task tracking, meeting scheduling, and tenant management for a large base of enterprise customers.
- Deliver interactive analytics dashboards and custom financial reporting modules for a high volume of daily active users.
- Design granular Role-Based Access Control with JWT authentication to enforce permissions across users and tenants.
- Optimize MSSQL schema design and query performance to keep dashboards and reports responsive.
- Independently ship complex modules end to end, including SignalR real-time chat, notifications, and third-party API integration.

### Full Stack Web Developer — Expert Accounting Software

*Apr 2024 – Jun 2025*

***Products: EAS Inventory Management | EAS Sync App***

- Built high-performance Angular applications for accounting and multi-warehouse inventory management, used daily by a large customer base.
- Developed secure ASP.NET Core Web APIs for data handling, real-time synchronization, and dynamic financial statement generation.
- Implemented multi-warehouse stock tracking, client transaction modules, and executive decision support dashboards.

### Frontend Developer — Aurum Memorabilia (Bahrain)

*Feb 2024 – Mar 2024*

***Project: Aurum E-Commerce Website***

- Built product catalog, multi-criteria search filters, and cart management with Arabic/English bilingual localization in a 5-member cross-border Agile team.

### Full Stack Web Developer (Intern) — Cloudy365 Pvt Ltd

*Oct 2020 – Jan 2021*

- Built ERP front-end screens and ASP.NET Web API integration for the ESESOL ERP system and its Android sales app.

## PROJECTS

### AI Website Chatbots — Angular, ASP.NET Core, Google Gemini API

***Project: Insurance Website (dr-saleem-insurance.vercel.app)***

- Integrated Gemini-powered chatbots into a personal portfolio and insurance advisor's website, answering visitor queries strictly from site-specific content through prompt engineering and context grounding.

## EDUCATION

**Bachelor of Science in Computer Science (BSCS) —** The Superior College, Lahore | May 2020
